Subject: RE: FL Water Issues

Allison: I forgot to mention that there were two issues in the version I

OW/R4

- Any policy updates surrounding golf course irrigation issues (OW)
- FL-specific WOTUS issues and any comments submitted by PGA (OW)

Subject: FL Water Issues

Allison: here is what we pulled together. The bullets under Water Infrastructure, Infrastructure Concerns and WOTUS, are from HQ, with the exception of the 2 highlighted Florida-specific bullets I added to the Water Infrastructure section. Please let me know if you have any questions.

Thanks

Allison Wise, Director
Office of Government Relations

Perfect. If you don't mind sharing what you put together on FI/404, I'd love to share that with our program and Dave to review tonight. We will stand down on Lake O.

Allison,

It was received by our OCIR staff (a separate office here in the region). They're in coordination with our water program and hope to have responses completed by early afternoon today.

Always good to speaking with you, Larry.

See the AO ask below. If you received the ask on Lake Okeechobee, then we will stand down on that one. Otherwise, if I'm happy to send along whatever you put together on that issue. Re: FL 404 Assumption, I pasted some generals TPs that we sent to the AO last week on our 404 program but they aren't specific to FL, which is where I will need your help.

We'll take this one. We'll also cross check with R4 to make sure we're on the same page for the OW/R4 issue. Thanks.
